Econolite Group, Inc. Unveils Aegis ITS at ITS America

Anaheim, CA, May 29, 2009 - After a long history as a leading solutions provider to its valued transportation agency customers, the Econolite Group of companies now expands its traffic management offerings to include professional and technical services under Aegis [ééjis] ITS.

Core to Econolite's corporate principles and mission is to provide quality, service, and value to its customers. Working closely with local transportation agencies for many years, Econolite has developed a variety of technologies that serve the needs of the transportation professional. Aegis ITS adds ITS services to Econolite's portfolio of traffic management offerings.

Aegis ITS is an Econolite Group, Inc. (EGI) company under the direction of Douglas Terry, P.E., Chief Operating Officer. Mr. Terry brings over 25 years of experience in the Intelligent Transportation Systems (ITS) industry, with a strong track record of ITS leadership throughout the United States and abroad. Mr. Terry is joined by Doug Henderson as Vice President, Business Development. Mr. Henderson has over 30 years experience in the traffic industry, working on numerous traffic management deployments throughout his career. Team Econolite (TeamE), EGI's established signal installation and maintenance company, is now a part of Aegis ITS, remaining under the leadership of Rodney Mathis, a highly respected veteran of the industry.

Mr. Terry comments, "We are launching Aegis ITS as a company fully resourced to deliver a broad range of ITS services, from systems engineering and integration to ITS installation and maintenance, to the transportation community." Terry continues, "By consolidating and leveraging TeamE and Econolite systems resources, Aegis ITS is equipped to serve agencies across the nation in the Econolite tradition of excellence."

Aegis ITS representatives, Mr. Terry and Mr. Henderson, will be available in Econolite Booth 401, at ITS America's 2009 Annual Meeting & Exposition, June 1-3 at the Gaylord National Hotel & convention center in National Harbor, Maryland.

About Econolite Group, Inc.

Econolite Group, Inc. (EGI) was formed as the umbrella organization to a group of privately held companies that serve the traffic management, aerospace, medical, and broadcasting industries. The EGI companies include Econolite Control Products, Inc. and Econolite Canada, Inc. (Econolite), Safetran Traffic Systems, Inc. (Safetran), California Chassis, Aegis ITS, and Team Econolite.

Econolite, in business since 1933, is a leading provider of traffic management products and services that promote safer mobility and improve the quality of life for the driving public. **Safetran**, in business since 1978, is a respected provider of traffic control equipment to the 170/2070-technology market. **California Chassis**, in business since 1947, is a fully integrated provider of precision metal fabrication and engineering services for a wide variety of industries. **Team Econolite**, in business since 2002, offers a broad range of traffic engineering and maintenance services.
