

Software Version: v3.7.0

Autoscope® Vision

Date: 14 December 2023

Document Number: SRN1564

Purpose of This Document

This document describes Autoscope® Vision Supervisor Suite changes in v3.7.0. Though v3.7.0 is not a mandatory upgrade, its improvement makes this release version highly recommended for installation.

Version 3.7.0, released to Manufacturing on December 14, 2023, is suitable for wide distribution to customers. All Autoscope® Vision products built after the release date of this SRN will ship with this new software.

About this Release

Improvement

You can now view the Comm Manager MAC address under Device Information. Note that the inclusion of the MAC address -- which was added in version 3.6.0 -- does not appear on Vision cameras.

Device Information

Firmware Version:	3.7.0.15
Device ID:	421803322
Serial Number:	D39320
MAC Address:	00:19:B8:03:02:BD

Manufacturing Support

Version 3.7.0 includes a Manufacturing Support update for an alternative Comm Manager component (discontinued by the manufacturer) to provide continued manufacturing support. Please be informed the replacement component does not affect the usability or performance of the Vision product.

Implementation

Customer orders for AVISIONSS -- Autoscope® Vision Supervisor License, specified on Sales Orders, will receive v3.7.0.

When applying this update (which uses InstallShield software), take a few moments to carefully review each dialog in the installation procedure to ensure the entire process runs smoothly.

How to Download v3.7.0

Autoscope® Vision Software Suite v3.7.0 is available from the new Econolite One-Stop-Shop site at www.Econolite.com/support. Simply scroll down to the Product Resource Library section of the One-Stop-Shop page and expand the Sensors group. You can filter for Vision or Software and easily find the software link. You will be required to use your login to the Tech Support Site to download the software (as indicated by the lock icon next to the link). If you don't have a login, you can request one using the "Register for Access" link.

The software can also be obtained from the Tech Support site in the Detection Support area, under Autoscope Vision. The link to the Tech Support site is included on the One-Stop Shop page which uses the same login.

Software Version: v3.7.0

Autoscope® Vision

Date: 14 December 2023

Document Number: SRN1564

Compatibility and Known Issues

Backwards Compatibility for Legacy Products

Autoscope® Vision Software Suite v3.7.0 is intended for the Vision line of Autoscope products and is *not* compatible with previous Autoscope products (e.g., Terra-line or Pro-line products). Also, as with any release of Autoscope® firmware, it is required that the same version of Supervisor run as the firmware loaded on the hardware (Sensor and Comm Manager). Incompatibilities with prior versions of Vision software as stated below.

Known Issues

Software v3.7.0 is backwards compatible only to Supervisor software v3.0.0.

Documentation and Assistance

HTML Help is accessible by pressing the [F1] function key. Help files are also accessible directly from the Start menu without running the client application.

Autoscope® Vision User Guide is accessible from the Start menu within the Supervisor Software folder title **Printable Manuals**. This guide, comprised of the *Supervisor Software User Guide* and *Autoscope Vision Hardware Installation Guide* (which have been combined), is also available by navigating to the install directory:
C:\Program Files (x86)\ISS\Supervisor v3.7.0\Printable Manuals

For assistance, contact your Autoscope Field Service Representative, Account Manager or Econolite Autoscope® Technical Support at: 800-225-6480, +1-714-630-3700, or DetectionSupport@Econolite.com.
