

Our Mission
 Saving Lives Through
 Improved Mobility

Econolite

www.econolite.com • marketing@econolite.com

Econolite's Intelligent Transportation System (ITS) solutions ease traffic congestion, provide safer mobility, and improve quality of life. As the one-stop-shop leader for traffic management systems, sensor products, and services, our broad offerings also include planning and design of turnkey, multi-modal transportation systems, software engineering, traffic network implementation, integration, operations, and maintenance. Econolite is committed to the advancement of connected and autonomous vehicles, smart cities, and cybersecurity. For more information: www.econolite.com.

Econolite Systems

www.econolite.com/systems

The Econolite Systems™ team focuses on delivery of industry-leading services across the ITS project life cycle – from design through maintenance and operations. Recent successful projects include signal system deployment for large metropolitan areas, development of citywide networks for ITS using fiber and wireless technologies, and delivery of maintenance services for major transportation authorities. Focusing on infrastructure-based ITS solutions, the company's capabilities extend to freeway and arterial applications. Agencies at both the state and local level have selected Econolite as their provider of choice for systems software, communications, and integration of a broad array of field devices.

CAViTa

www.cavitatrans.com

CAViTa is a wholly-owned subsidiary of Econolite, a leader in traffic management, Smart Cities, and Connected and Automated technologies. CAViTa enables transformational mobility, including Connected & Automated Vehicle (CAV) technologies, by providing world-class advisory services to public, private, and non-profit entities worldwide. We offer policy, strategy, deployment, and performance evaluation services to public, private, and non-profit entities worldwide.
